

Mission & History

First Tee – Greater Charleston helps kids and teens develop interpersonal skills and life-enhancing values through the game of golf. We serve more than 26,000 young people annually at golf courses, schools, and community centers throughout Berkeley, Charleston, and Dorchester counties, and our program participants are learning more than just golf fundamentals. Families consistently report improved confidence, better social skills, and a stronger desire to achieve—on and off the course.

Building a Home **Fore** Our Future

In 2027, we will enhance program impact with a state-of-the-art Youth Leadership Campus. The campus will feature a Learning Center and Kids Course. The course will exclusively cater to kids and teens (ages 5-18). Adults will only be permitted to play as accompanied guests. This unique membership model will enhance First Tee impact by creating a supportive community for kids, establishing program autonomy, and improving access for underserved communities.

Project Budget & Progress

Our project budget, which includes land acquisition, site development, and Learning Center/Kids Course construction, is \$14,000,000. As of June 2026, land has been acquired, site development is underway, and **we are more than 76% to goal.**

Course Construction & Club Partnership

We're seeking philanthropic **Golf Club Partners** to help us build our Kids Course through hole sponsorship...

Hole Construction Breakdown
